Exercise 1: Firefox Add-on

Implement a Firefox Add-on that supplies trackers with fake/random data and information that might be used for browser tracking. Test your implementation using services such as e.g. Panopticlick (https://panopticlick.eff.org/).

- due date: 24.01.2021 (EOB)
- no. of students: 2
- deliverables:
  1. Implementation (including source code(s))
  2. Documentation (max. 10 pages)
  3. Presentation (10 – max. 15 minutes)
